

INTRODUCTORY NOTES:

This compilation of periodical holdings was developed from data submitted by member librarians of the School Library System for the purpose of interlibrary loan. The primary objective of this publication is to provide access to magazine resources not otherwise readily available to students, teachers and school administrators.

Requests are to be made according to established procedure. The borrowing library is to fill out the photocopy sections of the School Library System Interlibrary Loan Form and send the form via the BOCES courier or U.S. Mail to the lending library. Requests may also be phoned or faxed directly or placed electronically.

The School Library System Directory provides the names, addresses, telephone and Fax numbers of the librarians.

NOTES:

Below certain title entries you will find a list of indexes in which the periodical is referenced.

A dash after the date indicates continuous holdings to the present; e.g.; 1977- indicates the holding includes 1977 to present.

Year and month are as follows: 1981:01 (i.e., February, 1981).

A periodical with a name change is listed under its latest title.

Not all librarians submitted their changes; therefore some information may be dated.

We would like to thank all of the busy librarians who submitted their updated periodical holdings.

SCHOOL LIBRARY SYSTEM STAFF
